

President

Kristyn Farrell

Second year

I have been involved with the UOttawa CSCE Chapter for the past two years. I have served as a member of the executive committee; as First Year Representative and as Vice President of Internal Affairs. I have experience in organizing the chapter's events such as our First Annual Industry Night this year, and I also have experience in promoting our events through class presentations, posters, and social media. Furthermore, I have experience in dealing with the chapter's affairs including meeting minutes, member registration, merchandise (design, promotion, sales, and distribution), bilingual social media posts and emails, EEF presentations, and communicating with companies and other contacts in a professional manner. I would like to run for President this year because I have many ideas on how the chapter can be improved, and I feel that my two years as a member of the executive committee have qualified me for the position by providing me with plenty of experience in different aspects of the chapter.

Vice President of Financial Affairs

Garrick Ho
Second Year

Dear CSCE,

Hello my name is Garrick Ho and I would like to run for the vice president of financial affairs position. There are several reasons as to why I am running for this position, the first being my having a strong desire to work with a team of other individuals who are just as ambitious as myself. I firmly believe that working in such an environment with succinct responsibilities not only produces a sense of fulfillment but also is a great place to learn and experience a more specific facet of education. That being said, the reason why I want to run for the position of Financial Affairs is because I believe that all the responsibilities this position offers align with my vision and most importantly, acts as my greatest drive to making sure I maintain excellence. To elaborate, managing finances have personally always been interesting to me as well as working with numbers. I have accumulated mild experience of financing through auditing for a family business and I believe that will accelerate me through the learning process hence enabling me to become an asset as soon as possible. In summary, these are my main reasons as to why I am running and lastly, it would be a great honor and privilege to represent the civil engineering department as Vice President of Financial Affairs. Thank you for your time.

Sincerely,
Garrick Ho

Samuel Field
Fourth Year

Hi my name is Samuel Field and I'm a fourth year and I would like to improve the CSCE again this year as the VP Finance. As of this year I have been on the CSCE for two years, once as the VP-corporate and this year as the President. This year I tried and succeeded with bringing new, innovative events to students that other CSCE do over Canada. This year I helped maintain the finances through the student chapter. By making the budget for all the events held this year. With all my knowledge of this society I plan on not only achieving my mandate but also help my other executives help and go beyond their mandate. I would be good at this position not only from my experience with the finances of this society; I have also maintained finances through different jobs like SGA, A&W and working at the Royal Oak. This will allow me to continue working with the society that I love so much and maintain the relation with this society. I hope to see all of you at the election if you vote for me or not because this society is supposed to help you guys have the best experience during your time here. This is one step to getting your experience heard.

Vice President of Internal Affairs

Batool Khozema

Second year

I am running for VP internal as I feel that I would bring a great deal of new ideas for sweater designs and patches for the upcoming 2017-2018 school year. I am qualified for the position as I worked under the supervision of the current VP internal. I was also involved with creating this year's new sweater design and aided in distribution of merchandise. I acquire many organizational skills such as planning and mandating meetings. I have also been very involved with CSCE this year by attending speaker nights and conferences. My goals for the upcoming year include, new patch and T-shirt designs.

Thank you!

Vice President of Communication

Lauryn Savannah Farrell

Third year

I'm a fully bilingual student who is this year's third year CSCE representative. I volunteered at or attended most of the CSCE events this year and next year would like to be even more involved with our student chapter. I have experience with event planning, working in a fully bilingual environment, and with CSCE. I hope to market CSCE events well and ensure all students have access to information about CSCE events and industry information in both our official languages, using Facebook and our website.

Yasmine Alkadri

First year

Yasmine (noun): writer, reader, poet, foodie, animal enthusiast...future UOCSCE Vice President of Communication. I like meeting new people and talking (a LOT). Being a part of the bigger picture and getting involved is really important to me. In the past, I've really hated wasting my time scouring around for information that should be readily available. So as VP of Communication, with my experience as a Stage/Production Manager, Leader of Front of House Affairs and Relay for Life Event Committee Chair, I'll strive to make all of your lives easier by improving the accessibility of important information (i.e. bringing it to the forefront and straight to your hands). I know most of us don't have ample time on our hands, so there'll be no need to spend your valuable time fishing around for event details, deadlines and other important information anymore. I'm a well versed trilingual (fluent in English, French and Arabic), easy to talk to and know my way around communication platforms. I look forward to meeting and working with all of you guys in the future and hopefully the opportunity to serve you as your Vice President of Communications.

Vice President of Social affairs

Sara Mohamed

Third Year

Dear Elections Officer,

I am an outgoing, organized and motivated student entering her fourth year. I would love to participate in CSCE as VP Social for my last year of study. I feel this position is perfect for me because I am very social so I understand what the students look for in an event and I have many ideas. I find myself very approachable which I believe is an asset in this position because people will approach me with their ideas and I can try to incorporate them. Also, I am open to and welcome other people's ideas. I believe everyone should have a say in the events and will be as inclusive as possible. Also, I believe this position entails bringing events such as Industry Night back and make them even better and I have ideas on how to do that. I am very organized so I will be able to manage the requirements of my final year and my responsibilities to CSCE. I want my last year to be filled with many exciting memories and given the opportunity, I will make sure it's not only one to remember for myself but for all the participants. Thank you for your consideration.

-Sara Mohamed

Vice President of Corporate Affairs

Steven Wu

Third year

Hi, my name is Steven Wu. I wish to run for this position because I feel it is important that students are able to establish a relationship with businesses. Connections are often made through attending events and speaking to the random person next to you. They may be a project manager, an HR representative or even a company president. It is through getting to know them, that opportunities can be found. I have been to many job fairs as well industry nights and have found it easy for me to get to know recruiters and industry members. I hope to organize more events for our civil engineering student body so that the doors for our careers can be opened up further. Educational tours are also something I would like to focus on as there are things we can't learn from simply attending courses. I am bilingual and fluent in Mandarin Chinese so please don't hesitate to contact me for questions. Thank you for your consideration.

Herb Chao

Third Year

I would like to run for VP corporate for CSCE to be more directly involved in contributing to events and initiatives that CSCE provides for the students of the civil engineering faculty. The VP corporate spot interests me in particular for the responsibilities of maintaining corporate relations between CSCE and external parties.

Richard Herard

Third year

Hello, my name is Richard Herard and I am running for Vice President of Corporate Affairs for CSCE. My main goal as a CSCE executive would be to improve the resources available to the undergraduate students and to organize new events. I will work on bringing companies to my fellow students, thus giving them more opportunities to obtain interesting and exciting professional employment during the summer and after their studies. I believe that the best way to obtain professional level employment is to communicate and network with the companies in order to make your name more well known in the industry. I would like to enable each student to have these opportunities made available to them. Having worked in construction for many years, I have learned the value of hard work and would like to dedicate my hard work to a society and the students it represents. I spend many hours at the university and enjoy helping my colleagues; I would like the opportunity to help everyone of you and invest my time in the society and the fellow civil engineering students.

I hope to see you this election day, March 30th, whether or not you vote for me. I appreciate your involvement with the uOttawa Chapter of the Canadian Society for Civil Engineering.

I hope you have a good day

Richard Herard
